

Howard Regional Health System

Oncology Center Addition & Renovations

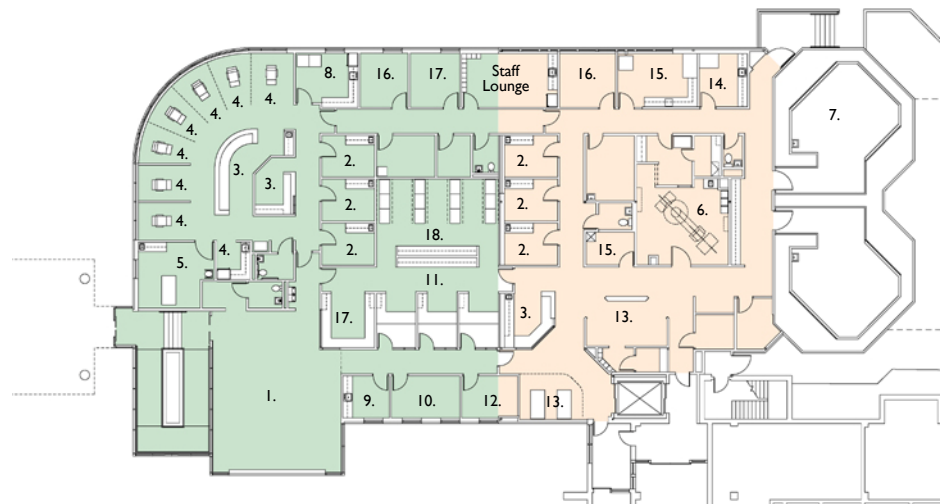

Kokomo, Indiana

The expansion of Howard Regional Health System's Oncology Center includes the renovation of 5,828 square feet and an addition of 6,247 square feet. The Oncology Center will provide clinical and treatment facilities for medical and radiation oncology.

Construction was completed in two phases to allow the center to remain in operation. In the first phase, the new addition was completed and occupied followed by renovation of the existing center in the second phase.

Completed December 2004
Construction cost \$2,663,258.77
6,250 sf addition; 5,800 sf renovation
