# St. Elizabeth Ann Seton Catholic Church

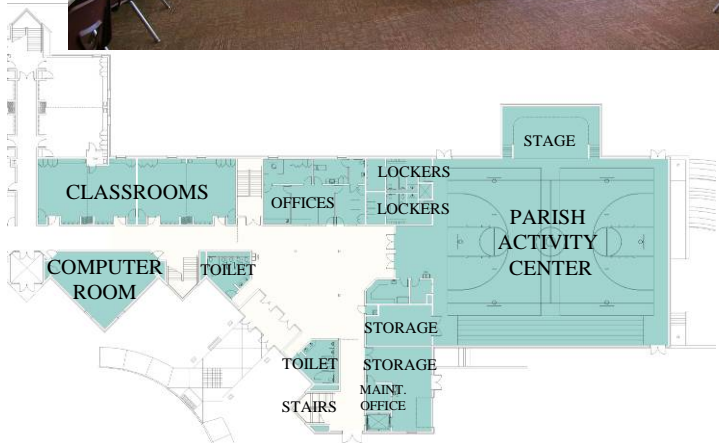

**Parish Expansion & Renovation**  
Fort Wayne, Indiana

Vintage Archonics' relationship with St. Elizabeth Ann Seton Catholic Church spans more than 15 years when the initial discussions about a new church building began.

Initially a 24,000 sf facility was designed and built which included a baptistery, 1,100 seat sanctuary, parish hall, gathering space and administrative suite. Six years later a 31,000 sf two-story addition was added to the existing facility included 20 classrooms/-religious education rooms and a wing for parish offices. Construction costs for Phases I and II totaled \$4 million.

Under construction in 2007 is a \$5.6 million, 47,000+ sf addition which is comprised of additional school classrooms, full-service commercial kitchen, youth area, parish activity center and outdoor sport-fields, still allowing the school some future classroom growth, as well as providing the church with improvements so critical to fundraising efforts.

Completed November 2007  
Construction cost \$5,600,000.00  
47,443 sf
